**DOWN
TOWN
LINCOLN**
ASSOCIATION

native pollinator (n.)

/ˈnɑːdɪv/ /ˈpɑːləˌnɑːtər/

a species naturally present in an area that transfers a plant's pollen and helps reproduction

threats

toxic pesticides
monocropping same plants without variety
suburban sprawl
recreational land use
climate change

solutions

buy food from local family farms
plant diverse native flowering plants
keep your garden free from chemicals and pesticides

want to help our cause?

Check out the donation levels below!

...or simply show your enthusiasm, spread the word to friends and family, host an event that celebrates the flyway, place beautiful flowers in your entryway, or clean up cigarette butts and other trash in the 13th Street community!

donation levels

1. Wildflower Power \$100 - \$249	2. Pollinator Protector \$250 - \$499
3. Migrating Monarch \$500 - \$999	4. Queen Bee \$1,000+

The flyway will be brought to life in the 59 pre-existing planter beds along 13th Street between R Street and Lincoln Mall
